

Kahl VeggieWax 2223

Characteristics

Kahl VeggieWax 2223 is a vegan and vegetable-derived alternative to pure beeswax. By blending **Candelilla**, **Carnauba**, and **Myrica fruit wax** with some natural additives a wax is created having very similar application performance and technical properties than beeswax.

Application

Kahl VeggieWax 2223 has a similar melting range and hardness than beeswax. The unique blend is a moderately hard wax which is deformable at body temperature with excellent oil binding capacity, and adhesiveness to skin and hair.
